

Some Resources to get you started with Compiler design and LLVM .

- <https://craftinginterpreters.com/>
- The Dragon book(with a note that it's old and academic)
- Engineering a Compiler (book)
- <https://bernsteinbear.com/pl-resources/>
(this contains a lot of resources for PL design,compilers,interpreters,JIT etc.)
- <https://www3.nd.edu/~dthain/compilerbook/>
- https://youtu.be/IR_L1xf4PrU (One of nice intro to compilers and LLVM)
- <https://youtu.be/J5xExRGaIIY> (great overview about LLVM Compiler Infra)
- <https://www.cs.cornell.edu/courses/cs6120/2020fa/lesson/> (more complex course on compilers and LLVM)
